					WiFi LED Rotary Dimmer - trailing edge - compatible with Alexa app, Google Assistant, Amazon Alexa - Tuya platform	Zigbee LED Rotary Dimmer. Compatible with most Zigbee powered systems like Philips Hue and Honey- Touchlink support for easy pairing to e.g. Zigbee remotes. Zigbee 3.0 protocol. Easy to install on/off/on by using the physical knob or the app of the respective lighting brand.	2-Wire LED Rotary Dimmer. Control your lights by a physical knob or via your 2-Wire gateway. Compatible with most 2-Wire powered systems like Fluxus and others. Honey- trailing edge	With this 2-Wire - Leading/Trailing Edge - 3-1500V LED - 16-400W universal dimmer you can dim both LED lamps and halogen lamps. It is suitable for Leading-Edge or Trailing-Edge and selects the right source flashes. This can also be set yourself!	Universal rotary LED dimmer - ball-in-phase lead-off (trailing edge) (5-1000W). Suitable for alternating / hotel switching & cross switching. With this universal dimmer you can dim both LED lamps and halogen lamps. It is suitable for phase cutting and phase cutting and selects the correct source half. This can also be set yourself!	LED dimmer ball-in-phase lead-off (trailing edge). Set state system - Small installation depth (24 mm). Suitable for alternating / hotel switching & cross switching. With this universal dimmer you can dim both LED lamps and halogen lamps. It is suitable for phase cutting and phase cutting and selects the correct source half.	Universal dimmer - 250W - Auto leading (trailing edge) - 2-way. The dimmer detects the load type and automatically switches to either leading or trailing edge mode. In addition, the minimum brightness is adjustable. Protected against overheating and overloading. The ball-in-depth of the dimmer is 24 mm.	Universal Dimmer - 400W - Leading/trailing edge - 2-way. The dimmer automatically selects the load type and includes a switch for selecting either leading or trailing edge in addition, the minimum brightness is adjustable.	Dimmer - 5-150W LED 10-300W - Trailing Edge - 2-way. The dimmer uses trailing-edge to dim and includes a trim pot which allows the adjustment to a lower dimming level. Furthermore, the dimmer is protected against overheating and overloading.	Universal Dimmer - 500W - Auto leading (trailing edge) - 2-way. The dimmer automatically detects the load type and switches to either leading or trailing edge mode. In addition, the waveform is automatically corrected to prevent voltage and current peaks. The minimum brightness is adjustable as well. No neutral wire is necessary.			
SHADA		150010	870226202052	Dimmer knob and frame suitable for all SHADA dimmers RAL 9010													use 5 corner nut and grey reducing sleeve
PEHA		80.630.02 NR	400105110315	Dimmer knob for rotary (push) dimmers and potentiometers e.g. for model 431 HAN LED D.A. and 432 HAN LED D.A., also applicable for other models PEHA rotary/potentiometer dimmers. Series: Standard. Color: living white. RA9010. Dimensions: 81 x 81 mm.	X	X	X	X	X	X
