

**2900410 Adapter - 10x1.5cm - White - Panel**

- To convert from GST18 plug to europlug
- easy to plug in via adapter
- 10 centimeter

No more problems connecting your panels with this adapter. Our panels are usually supplied with an euro plug, although there are many GST18 connections. From now on this is no longer a problem. You no longer need to convert or remove anything, our adapter solves this problem. You plug one end of the adapter into the GST18 connection and the other end is connected to the plug of the panel. The cable between the two connections is 10 cm.
